LIFE IN EDEN GARDEN HOME AND

ALSO ABOUT MY AMBITION.

I am Anei Stella. Presently studying in Sacred Heart School Khuzama. As been a close family of Eden garden, I wish to express about myself about how I enjoyed staying in Eden garden and also what I want to become in the coming future.

First of all being apart of the Eden family, its really enjoyable and fun to be with our friends, classmates, youngers, teachers and also our loving father fr. Raymond D. Souza. who's really a role model for us. We are really a lucky children to have such a unique person who is really passion and loving to look after around more than 200 children in this Eden home.

We live together happily as one family, Even though most of us staying in the Eden garden home have no parents. But we felt that we have got everything and also felt that we have nothing lacking in us. why is it so? This is because of the loving father god almighty who is always by our side and thats the reason we the children who dont even have our parents are always happy and cheerful staying in the home of Eden.

As been a girl brought up from the home of Eden, After my higher studies I would like to see myself as an airhostess because the reason why I like it is because I like serving others and also making friends with the people from different parts of the world. And also I hope and pray that God the loving father too may guide me through out my coming life. So, that I may be able to fulfill my dreams because As we know that without God Nothing is possible if we dont trust and believe in him. So, I do hope and pray that it may be fulfilled.

INTRODUCTION:

I Kenei the only child of my parents. I had both father and mother. I was born in the year 1996, 23rd June, at Lasumi village, Alagaland. I am a Baptist girl, but I have great faith in Catholics also.

LIFE IN HIGH SCHOOL:

When I was 5 years old, I went to Government High School in village. For about four years, I studied there. At the age of 9, my parents kept me in hostel (Eden Garden Children's Home Khuzama) in 2005. I was looked after by my mother-sister for about a year and she passed her matriculation exam with good result, the very next year.

As I grew up in hostel and studied in Sacred Heart High School Khuzama, it makes me feel proud cause everything changes my life. I studied there till class 3 to class 10. I am on the process to give my matriculation exams (2013). Everyone hopes that it would be done successfully by the grace of God.

FAMILY:

I had a good grandparents, uncle's and uncles. They are all very loving and caring. My parents work hard, so that I may grow up in a successful, good and discipline daughter.

I really thank God, for he has given such a good parents and wish that he may grant them long and healthy lives and become a blessed and happy family.

LIFE SPENT IN EDEN GARDEN CHILDREN'S HOME KHUZAMA

NAME - ASUSIRO IVIKA PHOTO

DATE OF BIRTH - MAY 6th

As a small girl I was brought to this home by my mother sister in the year 2002 when I was in class 1. When I first step into this home I saw childrens like me and I was overjoyed to see them. At first it was difficult for me to deal with other children because I don't know how to speak English. But slowly I got to learn and know other childrens. I failed in the first year and repeated again in class 1 because it was tough for me to read since I don't know English.

In the first year when I was a new comer to this hostel i.e Eden Garden Childrens Home Khuzama Father Raymond was my best friend I enjoyed in his company though I miss my mother and my home I love being in company with father. He love childrens and so as do the childrens love him too. He was a kind loving person.

The years pass by and I learnt so many good things I learnt to be honest and sincer and punctual in my works. I learnt to be smart, confident in whatever I do. During the years I found many good friends and I had enjoyed the time with them but I never miss father's company I always go to him and spend my time with father. As a small girl I learnt to dance and in any occasion like Father Birthday i.e 28th July, Teachers day I dance. My talent was to dance.

The compound of my hostel is fresh cover with different kinds of trees. During spring the flowers bloom and the cheep of the birds are awesome. I am also attracted to the nature and I feel we are lucky childrens to be in this

home with all the facilities available and enjoying the privileges that is been given to us, and I am proud to be in this home because I might not get the chance to grow up properly like what I am today.

Now as I go away from this home I hope to do well in my works and studies and become great in my future. But I will be missing the company of father and childrens like me.

My Model - FATHER RAYMOND and MOTHER TERESA

AMBITION - To become a Doctor and serve for the poor and needy like my models.

My LIFE :-

I was born at Kohima A.G. colony on 16th of November. And went to school at 3. And at present I'm in standard 10th. I've 4 younger sister who are also taken care by Mr. Raymond O Souza S.J at Eden Garden childrens home Kheruma.

My parents met at Kohima and there itself they settled down. My dad was a police but a big drunkard too. He has a big heart and is also very brave. But before I was born he retired from his job. And with the little money he gets he never brings home, but uses it to drink wine or pay his debt. Then I was born, but I'm a sick child who never gives proper sleep to my parents. Every night my mom and dad used to hold me one after the other and when my dad holds me my mom tries to get little sleep then after an hour my dad would wake up my mom then he would go to sleep and so I grew up very sickly. One day it is said that I fell down in the pond. When my mother was in the garden. Then she came and searched all around at last finding me in the pond drowning she pulled me out with the help of a rope then I was saved. And we lived there in Kohima for 3 or 4 years then my father took us to his own place called Chakhabama where I and my sisters were brought up. At that time we were baptist and so we never knew anything about catholic. Though it is said that my grandfather was the 1st catholic at that place, but before I and my sisters were born he passed away cos he had a throat cancer. And so we do not know much about him. And seen catholic church too came. But I never bother about it cos I'm a baptist and I like going to church with my sisters. Every Sunday I read the bible quotation in the church which my dad taught me. Though he was a drunkard he uses his free time teaching me how to read the Bible and so, I learned it very fast. Soon my dad change his mind and said that he would stop -

drinking wine, and so he died it.
Then I studied in the government school. soon I change
my school and went to (TOS - school Kozobasa). Then
I studied there till class 5. And in the year 2006
my dad told that he wanted to join the
catholic communities so, we all agreed and we
became the part of that family. And we were
baptize and I did received my first holy communion
that year itself. Then a priest name called Fr. Tarsi-
anand brought me and my sister to Eden garden
hostel under the care of Fr. Raymond D Souza S. J.
who is very loving and caring like a mother as well
as a good gardener who always pour water on the
little flower so that one day they may bloom
up colourfully and brightened up every corner of
the world. So, that's what I and the other
childrens aims for it.
And now all five of us are here in Eden Garden
childrens home. And we do love father so much.
we enjoyed every bit of his love and cheerful
smile. Though the sky may be cloudy yet
our father Raymond never stop smiling. He
welcomes everyone cheerfully. His cheerfulness makes
our heart a better, brighter place. And makes
us grow in his love.
Thank god he has chosen the right person
to look after his flowers (childrens).

My aim - To be a writer or a nun.

I wish and pray that god will give me a bright
future, so that one day I too will ^{be} like -
Fr. Raymond and help the childrens like me.

MY LIFE STORY

MARY GRACE LHINGGAINEM ZOU

I am Mary Grace and i live in Maripur. At Present i am studying in class 10 and i am preparing for My matric exam. I was born in 1996 march 7th. I was born in a village where we are a chief and i got the love and care of my villagers. But soon after i was born my father passed away leaving my brother, me and my mother alone. My elder brother name is Peter and at present he is in standard 13 he really loves and cared for me. After the death of my father my mother too left me and my brother to be with my grandparents. My grandmother and my grandfather is really an angels for me because they really love and cared for me so much. My aunts and uncles too really cared and loved me and my brother. I studied in Maripur for so long and in 2010 i was sent to Nagaland to be looked after by Fr. Raymond D'souza who is very loving and caring to all his children. I really love Father Raymond because he really cared for me and for all the children of Eden Garden. he makes us feel like a home and even though i don't have a father he is my beloved

father. But sometimes i miss my dad and i wish to see him at least once and i hope God will let me see my dad one day after i die. My mother got married after some years and now she has a son. My mother too still loves me and my brother and she always comes to meet me and my brother with my stepfather. As i have been looked after well by my grandparents, aunts, uncles and fr. Raymond and fr. Ashuli i want to repay them back by becoming someone great in life. I have always dreamed of becoming and social worker and help the poor, needy and the orphaned people like me. I will study hard and become a great person and help the people of the world. As life is always ups and downs i think sometimes that my life is miserable without mother and father of my own. Sometimes when i see my friends met by their parents i feel sad and my tears comes down and wished to have parents like them too. Wish God will let me meet my dad soon. May the almighty God bless you and your family. And thank you for everything.

Hello. mam..... C. RACE

I am Levine Lina Krocha.

Heavenly father planted me on earth for a particular mission on 24th November 1996.

So, I am now 16th going on 17th. I was gifted with three younger brothers to play and share with, three elders brothers to defend my finance and two elder sisters to be obeyed and mould me. By God's grace both mom and dad are present and I find them to be my greatest gift. As a big family we are loved and cared contented by our parent.

At present I am on my preparation for my matriculation exam away from home and in hostel at Eden Garden children home. At home my mom is a government labourer, daddy farmer, little we get and gracefully we share. Two of my elders join a new life (married), two are in collage, one brother left study, next comes me your lovingly Lina, and the rest three are in high school which end with my youngest brother at present in class-II.

I Lina Krocha spent as a major of my life at the children home. I was brought here by my Parish priest Fr. Carolus under the love and care of Fr. Raymond D. Souza. I was a little girl then. I was moulded beautifully by my teachers and often here was a family together. I learnt lots from here and cultivated my habits.

One of my interesting thing of my life here is that my mom one day on my visit mention the word

of gratitude to Fr. Raymond [DANGOR] which means "big girl" and I am glad and would like to thank beloved Fr. Raymond in return for him to live long and safe life through the mystery of life.

I am really glad I met you and you made me reflect my life to share with you. My mind was totally out of serving and living a religious life. Accidentally one day of my highschool farewell party gathering recently on 23rd October 2012, I was inspired by a nun named Sister Kinan, my spirit of faith grew gradually.

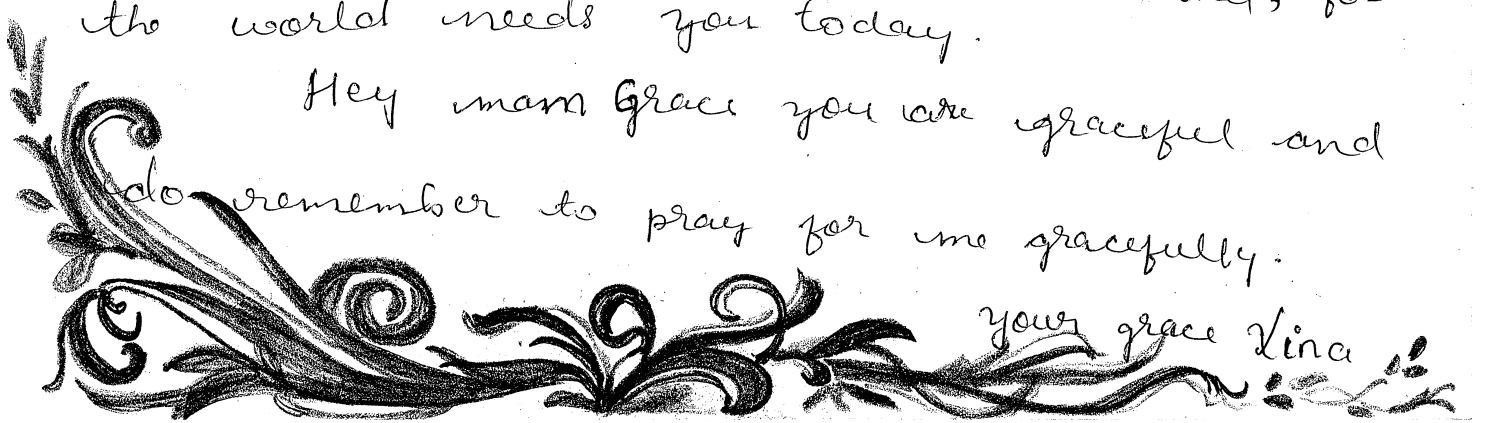

So, I inspired to be a nun as my carrier and carry on the mystery of life and fulfill my mission that my father in heaven sent me for.

I love listening to music, singing and painting. I admired a person like you coz you are less talked person, Great deeds done in your cation so as is Fr. Raymond. Wishing you lots of good memories of your stay here in Nagaland.

May you continue to work selflessly for the people and your virtues be immortal, for the world needs you today.

Hey mam Grace you are graceful and do remember to pray for me gracefully.

your grace Vina

My Hobby

This is a short thought about my hobby. What I like to do during my past time and when I did start liking it.

My hobby is painting, as I'm used to when I was very young. I choose painting as my hobby though I like many. Cause it's nice to choose one among all that I like. So that I can go on with what I choose when I am alone or bored. So, I chose painting of art as my one hobby.

I like painting because it is interesting. It is always welcoming for me when I see beautiful pictures, something interesting, rare and good to look at. I like because it is a calm work to be done without noise, with full of silent atmosphere. Also when I'm alone it's like giving a company. It also give me lots of imagination and ideas to be applied in it. Painting is where we can express our feelings through the pictures, though we can't express through words.

I feel that it's a great help for some handicap who express their feeling in all that they paint and art. And it comes so beautifully and marvellous in the eyes of other people. One may think painting and art is useless and waste of time but I think it's not. It can be a great help if we really mean to it. Painting of art gives joy and fun to one's life and also to other's. Painting of different structures makes the world creative, keeping a memory of someone else which we portraits it for some past years.

If you make use of your hobby during free hours it can be of great help in future. I realised: Painting of art was also a talent in one's life.

So, Painting is not just paint... but it increases our talent in different ways.

Hello...! It's me Kiyangulie Yashii, born on 12th May 1995. I thank God our loving father for the gift of life, for the gift of my parents, brothers, sisters and friends also who created this earth so wonderful and beautiful for you and for me. God created each and everyone for a purpose. Not for just play up with the world or our lives.

I was born from the poor family but God our loving father loves us so much that he gives us daily food and helped my Dad and Mom to find daily needs. I was lucky that my parents could manage to educate me. So, I was sent to school for study. There, I had funny and sad childhood memories. Sometimes I got to fight with my friends, sometimes laugh and sometimes play up with them etc. Sometimes I feel lazy to go to school because I feel bored moreover I feel frightened by seeing the teachers so I cry lots *kahaka*...!. I used to misbehave my Mom, Dad, brothers and sisters so I don't feel like going to school.

As the years pass on. I was transferred to another school that is (S.H.H.S) Sacred Heart High School Khuzama, in the year 2006. That time I was in class four. There also I had so many memories. I enjoyed lot with my friends and our teachers. Sometimes get beating from them and sometimes play and make fun with them. And you know I like to dance so I dance lot especially breakdance & freestyle *ketehe*... . If any function is there I forced myself and participate.

and so i'm thanking God for all the special talents that he has given me and also to all my friends that even though we are from different places we got to know each other by studying in the same school.

So, this is the last stage about to finished my high school life. Thank God for all the helped, guideneed and all the graces that i had received during the passed years. I also really enjoyed the Hostel life in Khyzama. It is a place full of flowers blommig in different kinds of colours. The place is fresh, pleasant and wonderful.

This place/Hostel is named as "Eden Garden children's home" wonderful, wonderful, wonderful! where Mr. Raymond looked after the childrens and so i especially thank him for giving all the facilities to us, to making us to come someone in future. I really enjoyed the hostel life ^{with} my friends and enjoyed all the facilities given to us there and i hope to become great in future if it is God's will.

Thank you so much for your time
God bless you.

Madame Grace----- I'm BOSEO. I came from poor family and I was born in Aiyai, Senapati district of Manipur on December 1996. In my family I have got three brothers and three sisters and among them I am the youngest child. I can proudly say that my family are still keeping well because of God's presence. In my life, from birth till now I have come across through many different ways to face and challenge the situation where it will lead me. I thank God for guiding and helping me throughout the day and night and for giving me everything that I need. Even though I'm from poor family I was educated and sent me to school in 2000. In 2009, I completed class VI (six) and was transferred to Sacred heart school Khugama. By the time I reached class 8 and now in 2013 I will be appearing metric exam. This prove me that God was always with me. Besides, my aim in life is to become priest. If God called me and choose me to be his servant and serve the people i.e. poor and needy. I really felt sorry for those who don't have parents, food, homeless and sick people. My motto is "I will and I can" and so, I knew well that I must be someone in the world. My vision was to bring peace among the people who are living in this world and to help the poor and needy.

Thank you madame Grace and please come and visit this place again. I hope you are interesting reading this short story about my life. please do pray for me and all of us (eden garden children) and surely I will also pray for you and I will always cherish you. Remember me whenever you turn this page. May GOD bless you and your family too.

I as a small boy in me year 1999-2001 my mother sent me to Government School. I studied in my own native place for three year around. But in the year 2002 I was brought to Eden Garden Children's Home and Sacred Heart School. For me beginning of my first time to other place and hostel, I was so confused with everything, like place, people etc. with those again I was the smallest in the hostel. I was admitted in class 10 for my high school but unfortunately I fail in my first year. But I did not lost hope, again I continous in me same class, but again fail.
